

HW 1

Submission Deadline: 4/1

- Create a (small) webpage for **your** department using HTML / CSS
- Basic Requirements
 - You must have at least 2 pages: a home page and an about page
 - Content must be real and realistic
 - You must have at least 10 CSS style rules (using external stylesheet)
 - You must include at least two fixed elements to make the site look consistent
 - for example: header, navigation, sidebar or footer

Grading Policy

- Meet requirements – 40%
- Appearance of the website – 25%
 - Is the layout well-organized and consistent
 - with appropriate color schemes and formatting
- Quality of HTML / CSS code – 20%
 - whether the code has a well-structured format, appropriate naming conventions, no redundant code, and good readability
- Creativity/Effort – 15%
 - are there any additional creativity/features beyond the basic requirements
 - for example, using the topic we didn't cover, like Grid/Flexbox, animations...

Additional Policies

- Do not copy others' work. You are encouraged to discuss and collaborate, but your submissions must be your own
- Please do not directly use AI-generated code. While it might help you earn a grade, but it will cause you to lose practice opportunities
 - You may ask for guidance on structuring your code, evaluating its quality, and improving your implementation.

Submission

- Provide a ZIP file named: **student_ID-hw1.zip**
- Inside the ZIP file:
 - A folder containing your source code
 - A simple document (PDF file) named: **student_ID-hw1.pdf** that briefly explains:
 - Which parts fulfill the basic requirements
 - Which parts you think might earn points in the Creativity/Effort score

Question ?

- If you have any questions, please contact the teacher or TAs as soon as possible
